

## Fountain Hills Real Estate Market – Sellers Market

100 equals balanced market between demand vs. supply. Green Market Index color favors sellers.

**Cromford Demand Index™** is a value that provides a short-term forecast for the demand for resale homes in the market. It is derived from the trends in pending and sold listings compared with historical data over the previous four years. Values above 100 indicate more demand than usual, while values below 100 indicate less demand than usual. A value of 100 indicates the demand is close to normal.

**Cromford Market Index™** is a value that provides a short-term forecast for the balance of the market. It is derived from the trends in pending, active and sold listings compared with historical data over the previous four years. Values below 100 indicate a buyer's market, while values above 100 indicate a seller's market. A value of 100 indicates a balanced market.

**Cromford Supply Index™** is a value that provides a short-term forecast for the supply of resale homes to the market. It is derived from the trends in active listings compared with historical data over the previous four years. Values above 100 indicate more supply than usual, while values below 100 indicate less supply than usual. A value of 100 indicates the supply is close to normal.
